Action at Home for the Njoro Group dated 20<sup>th</sup> Jan 2017

I am Francis a former volunteer at Team Njoro i will first take opportunity to appreciate the far we have gone. I am also a programmer by passion when I got the chance to work and learn with I took my leisure time to try and figure out what I can do to make a mark using my skills.

This is when I came up with this Team Njoro app with a lot to help Volunteers by giving the conducive environment to be able to serve the Entrepreneurs at their level best.

These are remaining data for the Team Njoro App

**a) entrepreneurs List**

This is the list with all the information concerning the entrepreneurs from their names to where there located.

**b) Taxi List**

For this one i am are considering the fact that you may have changed or added more taxi drivers. Also,

- i. the new average rate for both day
- ii. The night rate average and at list I expect a little higher than day.

**c) Host Home mums list**

This is the mums list I expect to either add or deducted from the one we had, I can remember there is a host home where people were transferred to another host home.

**d) UKV/ICV contact list**

For this am sure maybe the contacts for the UKVs will be the last thing to add in the app since the UKVs are not around for the time being.

**e) ICV Survey links**

Help me with these link too please

- a) First survey- before curriculum
- b) Second survey – After curriculum syllabus.
